Golden monkeys live only in China. They are protected by the Chinese government. Their fur is golden and a bit grey. Their tails are as long as their bodies. Male golden monkeys are big and strong while the female ones are much smaller.

Golden monkeys live in forests which are 2,000~3,000 meters above the sea level. They like living in family groups. They eat fruits, nuts, tree leaves and so on. But now their number is getting smaller and smaller. Our government has built some nature reserves to protect them. We hope more and more people will understand the importance of protecting wild animals. We also hope that people will stop hunting golden monkeys.

- 十二、 Pandas are China's national treasure. They live in Sichuan Province and Gansu Province in China. They have black and white fur. They have lovely eyes and they are fat. We love them very much. They like eating bamboo. They can climb trees and swim. Now, there are only no more than 2,000 giant pandas. So we must try our best to protect them. There are fewer and fewer places for pandas to live in and less and less food to eat. Please protect pandas because they are our friends!
